## ActewAGL presents Aussie premiere at Enlighten

Event energy partner, ActewAGL has announced today that they will present an Australian first at Enlighten this year.

Fresh from Antwerp and the creative work of Theatre Tol, *Pedaleando Hacia El Cielo*, cycling to heaven, is a large scale aerial act featuring performers, singers, video imagery and pyrotechnics. Sure to captivate audiences, the performance is an impressive inclusion to the existing line-up for Enlighten.

This is the first year ActewAGL have partnered with Enlighten, which will see them recognised as the Energy Partner for the event for the next three years.

ActewAGL Director Marketing and Corporate Affairs Paul Walshe, said: "ActewAGL is excited to be the Energy Partner for Enlighten for the next three years.

"We have always been a major supporter of the local events loved by our community such as Skyfire, the ActewAGL Royal Canberra Show and most recently, the Versailles: Treasures from the Palace exhibition at the National Gallery of Australia; so it's a natural fit for our organisation.

"Enlighten really shines a light on our beautiful capital, and ActewAGL is very proud to be putting our energy behind it," said Mr Walshe.

It is important to the ACT Government to partner with organisations such as ActewAGL who work towards strengthening the future of our city, and provide services and support which benefit the whole community.

*Pedaleando Hacia El Cielo* is free for event attendees to experience and will feature twice across the Enlighten program.

From 8.30pm on Friday 10 March, visitors will be treated to a spectacular performer parade through King Edward Terrace, Parkes, with the large scale aerial performance taking place in the Parliamentary Triangle on Saturday 11 March at 9.00pm.
